

Sometimes demolitions are necessary...

...but they should never harm people's health.

INTRODUCING THE NEW DEMOLITION AND PUBLIC HEALTH TASK FORCE

You can make sure demolitions are done right.

STL Vacancy Collaborative wants to **reduce the negative impact of vacant property** in St. Louis City.

The new Demolition & Public Health Task Force will recommend ways to **make demolitions safer for neighbors.**

We want to hear from you because **your experiences matter.**

We need to understand your **concerns and ideas** so we can recommend changes that make sense.
